	ENVIRONMENT POLICY	Print	26/7/2023

T.A.G. MARINE SDN. BHD. (TMSB) values the environment and recognizes that its business activities pose risks of pollution. The management shall work to minimize the impacts of operations on both communities and the environment.

TO ACHIEVE THE OBJECTIVE TMSB AND ITS MANAGEMENT WILL:

- Continuously improve environmental performance through the management of business activities and integrating recognised environmental management best practice into business operations.
- Manage business operations to prevent pollution.
- Comply with relevant environmental legislation as was other environmental requirements
- Manage waste generated by business activities according to the principles of minimisation, re-use and recycling and where needed dispose of the residual waste in a responsible manner.
- Manage other environmental pollutant risks generated by business activities, aspects of its preventive, and protection issues.
- Give consideration to environmental issues and energy performance in the construction and use of building and other infrastructure
- Allocate sufficient resources for the effective direction and implementation of the Environmental Policy.
- Communicate the importance of environmental issues to personnel and promote a business culture whereby everyone within the Port regardless of role or position is encouraged to take responsibility for their actions and the environmental impacts they have.
- Promote environmental awareness and the importance of environmental issues to contractors, tenants and others who have an interest in our business.
- Set and monitor key objectives and targets for managing environmental performance.
- Communicate internally and externally the Port Environmental Policy and performance on a regular basis and encourage feedback.
- Review the policy regularly
- Promote zero incident and zero pollutions.
